DataSmart Compact Canon

10.0" - 14.0"

Compact "Ready-to-work” cases for 10“

The case is extremely compact as a result of the "sandwich " construction with the printer sitting beneath the Notebook platform. This means that your notebook and printer remain connected up in your case for when you want to work. The paper feed runs beneath the Notebook platform to save space and keep paper crease-free and when the Notebook platform is folded down paper can be removed from the side.

Notebooks are held in place with 3M Dual Lock fasteners and synthetic corner supports. The individually adjustable corner supports ensure that the extra large, detachable Notebook platform can accommodate Notebooks ranging from 10" to 14 ". Two different adaptors (2 x Euro 8 and 2 x Euro 8 with a protective earth conductor - IBM/ Compaq cable) ensure that Notebooks from different manufacturers can be connected. The Canon iP100 printer fits snugly into the base of the case. The power supply unit from the Notebook and printer are connected via the 220V IEC power socket on the exterior of the case. A compartment in the lid of the case allows documents to be transported safely.

Art. Nr.: D30243 (black)
D30242 (silver)
Material:
Weight: 3 kg / 6.62 lbs
Dimensions: 440 x 380 x 150 mm / 17.3 x 15 x 5.9 inch
For Notebooks up up to: 335 x 270 x 50.0 mm / 13.2 x 10.6 x 2 inch
